PROFILE

I am a passionate and driven professional with experience as a chef and former owner of my own business. Transitioning into software development, I advanced to become a team leader and later a project manager. I currently supervise several successful projects and consistently deliver strong results. I thrive in team environments and enjoy working closely with people. My diverse background gives me a unique perspective on leadership, creativity, and problem-solving.

WORK EXPERIENCE

Chef Cloud kitchen 2020 - 2024

Manager & Chef

- Managed both kitchen operations and business marketing, successfully balancing daily food service with long-term strategy and customer engagement.
- Led a team of chefs and marketing staff, fostering a collaborative environment and ensuring timely delivery of high-quality dishes and marketing campaigns.

Software Developer 2023 - 2025

Team Leader & Project Manager

- Supervised software development teams, ensuring effective task delegation, collaboration, and high-quality code delivery within tight deadlines.
- Planned and executed multiple projects from start to finish, aligning technical goals with business needs while ensuring timely delivery and client satisfaction.
- Used leadership and analytical skills to guide decision-making, manage risks, and optimize workflow, which led to the success of several strategic projects.
